

SHUBHAM BIHADE

Java React Full Stack Developer | React Developer

Pune, Maharashtra

☎ +91-7972841297 | ✉ shubhambihade24@gmail.com | 🔗 [LinkedIn](#) | 🐙 [GitHub](#) | 📁 [My Portfolio](#)

Full Software Engineer with **3+ years** of hands-on experience in developing robust and scalable web applications using **React.js Full Stack Developer**. Proficient in leveraging React ecosystem to build dynamic user interfaces and interactive features that meet client specifications and exceed expectations. Skilled in collaborating with cross-functional teams to deliver high-quality software solutions within tight deadlines. Passionate about staying updated with the latest technologies and best practices in Front-End as well as Back-End development.

TECHNICAL SKILLS

- **Frontend:** React.js, React Native, JavaScript (ES6+), Redux, Redux Toolkit, Babel, JSX, HTML5, CSS3, Tailwind CSS, jQuery, Bootstrap, Material UI, Responsive Web Design, TypeScript.
- **Backend:** C#, .NET Core, Java 17, Node.js, Spring MVC.
- **Technologies/Frameworks:** SDLC, Agile Methodology, OOP Concept, Spring Boot, Hibernate, Maven, JWT, Microservices, Next.js, Gen AI.
- **Tools/Platforms:** Git, GitHub, VS Code, NPM, Visual Studio, Maven, Postman, Azure DevOps, CI/CD Pipelines.
- **Other:** MySQL, MongoDB, Unit Testing, Web development, Team Collaboration, Good Communication Skills

EXPERIENCE

Software Engineer at Vagaro Technologies | Ahmedabad

September 2021 – July 2024

- Demonstrated proficiency in developing and maintaining web applications using **React.js**, employing best practices and **responsive design** patterns to ensure code quality.
As a React Software Engineer, I have **3+ years** of work experience in **Web Development** & developed responsive **Single- page applications (SPA)**.
- Possess prominent knowledge in **Frontend** as well as **Backend** developer having hands-on experience in **React, JavaScript (ES6), .NET Core, C#, JavaScript (ES6), HTML5, CSS3, LESS, SCSS, jQuery, Git, Azure**.
- Technically productive in **Redux, Node.js, MySQL, MongoDB**.
- Developed **Core API, RESTful APIs**, using **.NET Core & C#** and experience in **API Testing, Unit Testing** using **Postman**.
- Developed different **Functional & Class components** using **React**.
- Well hands-experience with **MS Office, MS Excel, Azure, DevOps** and multiple programming tools like **Visual Studio Code, Visual Studio 2022, Notepad++**, etc.

PROJECTS

Qkart 🚀

- A **MERN** based **Flipkart like** app with **Register/Login** and **Dynamic product listing, Search, Shopping cart and checkout** functionalities.
- A full-stack project using **Node, Express and MongoDB at backend** and **React, Material UI** to apply a uniform theme at **frontend**
- **Major Frontend** functionalities are **Routing, Data binding, Debouncing, caching the duplicated API requests, tested thoroughly using JEST** in frontend and backend both with coverage more than 90%
- In the **backend, robust REST APIs**, validation with **JOI, JWT token** and **password authentication**
- Utilized **Render with MongoDB Atlas** for backend, **Vercel** for frontend deployment.

QTrip – Dynamic Travel Website

- Built a fully responsive and dynamic **travel booking** platform enabling users to explore, filter and reserve travel adventures.
- Integrated **REST APIs** to fetch real-time data for **cities, categories and adventures listings**.
- Implemented dynamic filtering (**by duration, category, price**) and **search functionality** using **JavaScript**.
- Designed reusable **UI components** with clean **HTML5** and **CSS3** ensuring **mobile-first responsiveness**.
- Developed interactive pages including **Landing Page, Adventures Page, Adventures Detail** and **Reservation** flow
- Managed client-side state using browser storage (**localStorage**) for reservation tracking.
- Deployed the application using **Netlify** (frontend) and **Render(backend) Vercel** ensuring live accessibility.

Qtify : Song Browsing Web Application

Qtify is a song-browsing application built from scratch using **ReactJS** paired with **Material UI** and **Swiper** to deliver a seamless and aesthetic user interface, offering songs from different albums and genres for music lovers.

- I conducted a thorough analysis of the provided **Figma design**, successfully identifying and documenting required front-end components.
- Designed and developed a fully functional song-browsing application from scratch, focusing on **performance, scalability** and **user experience**.
- Build reusable and modular components such as **Cards, Carousels** and **Buttons** to ensure maintainability and consistency across the application.
- Implemented a dynamic genre-based filtering system using customized **Material UI Tabs**, enabling users to explore songs by category seamlessly.
- Integrated REST APIs to fetch and display real-time data from the backend server.
- Enhanced user experience with smooth scrolling and interactive carousels using **Swiper**.

Vagaro Capital

- Developed the complete **Vagaro Capital** web application from scratch using React.js for the frontend and .NET Core for backend services.
- Designed and implemented responsive user interfaces for messaging, billing, and financial reporting modules, ensuring seamless user experience across desktop, tablet, Android, and iOS devices.
- Integrated RESTful APIs developed in .NET Core to fetch, process, and display real-time billing and transaction data.
- Collaborated with backend teams to design API contracts, optimize data flow, and improve application performance.
- Developed reusable React components and implemented state management to enhance maintainability and scalability of the application.
- Optimized application performance by reducing unnecessary API calls, implementing lazy loading, and improving component rendering efficiency.

EDUCATION

Institute of Management and Career Courses, Pune
M.C.A. – Computer Applications

2018 – 2021
Pune University, Pune

G. S. Science, Arts and Commerce College, Khamgaon
B. Sc. – Computer Applications

2013 – 2016
Amravati University, Amravati

CERTIFICATIONS/Courses

- **Java Full Stack Developer with Gen AI** Program.
